Team Member	Component(s)	Specific Tasks Completed	Testing/Debugging
Bobby Oliver	Resource management, complexity analysis, searching and documentation	Implimented Resource management Created search binary feature for project and implimented it to main Created documentation for project code	Feature worked as intended no issues encounterted search function works in compiled program
Shwet Naik	Resevation management, sorting	Created reservation class and reservation manager functionality for creating, canceling, viewing, and searching reservations. Implemented cancelllation history with undo functionality for the most recent cancellation. Also created sorting.h and sorting.cpp implemented merge sort to order resource by reservation count, with alphabetical ordering for ties, connected the sort to the report in systemreports.cpp.	Tested reservation creation, duplicate IDs, searching, cancellation, cancellation history, and undo cancellation.Tested the most requested resoureces report with reservation for multiple resource.
Bryce Harbison	Linked List Implementation, Waiting list, Reporting	Created the LinkedList cpp and header files, adding the necessary functions needed to them, such as adding a reservation to the list, removing a reservation, displaying a reservation's information, and finding a specific reservation. Also created the waiting list cpp and header files, adding the necessary	Tested the LinkedList class and had to rewrite it because of the fact that it was incorrect and did not function as intended

Individual Contributions:
Bobby Oliver(Leader)

I worked on the search function implimenting binary search for all elements of the reservations

Shwet Naik

Developed the Reservation Management and Cancellation History components. Created reservation data structures and implemented creating, canceling, viewing, and

Bryce Harbison

I created and filled out the linked list and waiting list classes, creating the required functions and making sure they would work as intended. I did this by setting up the

GitHub Contributions
pushed search function to project and uploaded documentation update for project
Added reservation.h/cpp, reservationmanager.h/cpp and cancellationhistory.h/cpp; tested and debugged reservation and cancellation. Committed the sorting implementation.
Added Linkedlist.h/cpp, WaitingList.h/cpp, SystemReports.h/cpp and updated multiple other files
